Variante A

```
Sub Test_DirectAccess_ForAll
       Dim db As New notesdatabase( "", "names.nsf" )

       Print "Begin Test_DirectAccess_ForAll"
       Forall v In db.views
               s = v.name
               Print s
       End Forall

End Sub
```

Variante B

```
Sub Test_TempAccess_ForAll
       Dim db As New notesdatabase( "", "names.nsf" )
       Dim i As Long
       Dim s As String

       Print "Begin - Test_TempAccess_ForAll"
       tmpView = db.Views

       Forall v In tmpView
               s = v.name
               Print s
       End Forall

End Sub
```

Variante C

```
Sub Test_DirectAccess_ForNext
       Dim db As New notesdatabase( "", "names.nsf" )

       Print "Begin - Test_DirectAccess_ForNext"
       For i = 0 To  Ubound(db.views)
               s =db.Views(i).name
               Print    s
       Next

End Sub
```

Variante D

```
Sub Test_TempAccess_ForNext
       Dim db As New notesdatabase( "", "names.nsf" )
       Dim i As Long
       Dim s As String

       Print "Begin - Test_TempAccess_ForNext"
       tmpView = db.Views

       For i = 0 To  Ubound(tmpView)
               s =tmpView(i).name
               Print    s
       Next
```

End Sub
